Kindergarten Unit 1 worksheet: Number names, numerals and zero (answer key)

ANSWERS AT A GLANCE

1. 4 acorns to the card 4, 2 acorns to the card 2, 5 acorns to the card 5.
2. Circle the card 9. There are 9 donuts.
3. 7 shoes circled, 3 shoes not circled.
4. Circle the card 1 under the empty bowl. It should be 0.

WORKED SOLUTIONS

1. Draw a line from each group of acorns to its number.

ANSWER

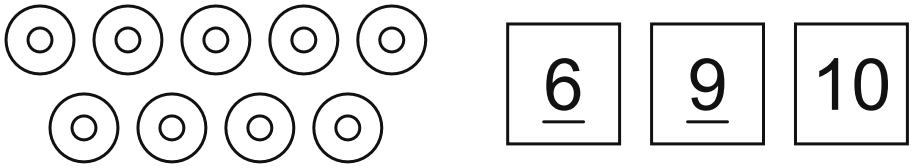

4 acorns to the card 4, 2 acorns to the card 2, 5 acorns to the card 5.

SOLUTION

Count each group: four acorns, two acorns, five acorns.

Find the card that says each number. The cards are not under their own groups, so each line runs across: 4 acorns go to 4, 2 acorns go to 2, 5 acorns go to 5.

2. Circle the card that tells how many donuts.

ANSWER

Circle the card 9. There are 9 donuts.

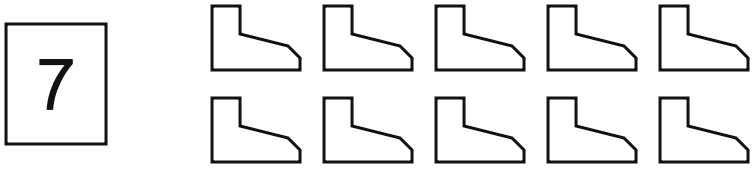

SOLUTION

Count the donuts: five in the top row, then six, seven, eight, nine. There are 9 donuts.

The 9 and the 6 look alike. The line goes at the bottom, so the card with the loop on top is 9.

3. Circle as many shoes as the card shows.

ANSWER

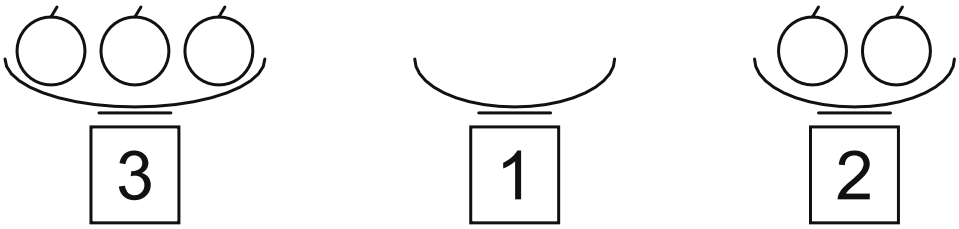

7 shoes circled, 3 shoes not circled.

SOLUTION

The card says 7, seven.

Touch each shoe once and circle it: one, two, up to seven. Stop at seven. 3 shoes are left.

4. Kofi put a card by each bowl. Circle the wrong card.

ANSWER

Circle the card 1 under the empty bowl. It should be 0.

SOLUTION

The first bowl has 3 plums and its card says 3. The last bowl has 2 plums and its card says 2.

The middle bowl has no plums. None is zero, so its card should say 0, not 1.
