Kindergarten Unit 1 worksheet: One-to-one correspondence (answer key)

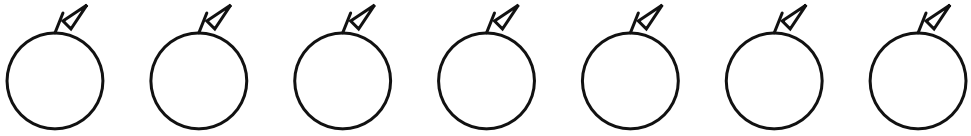

ANSWERS AT A GLANCE

1. 7 apples.
2. 6 balls, one under each hat.
3. No. 1 child has no cup.
4. The second ball. It got two words, "two" and "three". There are 4 balls.

WORKED SOLUTIONS

1. Touch each apple once as you count. Circle how many.

5 6 7 8

ANSWER

7 apples.

SOLUTION

Touch one apple for each word: one, two, three, four, five, six, seven. The last word is seven, so there are 7 apples.

2. Draw one ball under each hat.

ANSWER

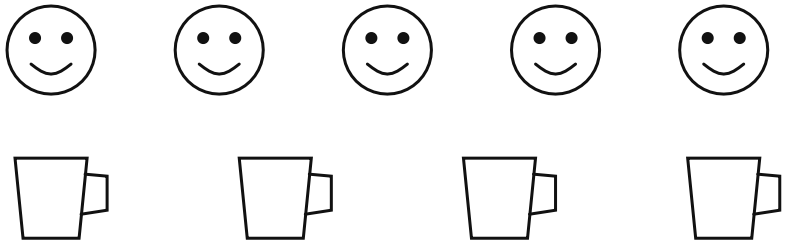

6 balls, one under each hat.

SOLUTION

Go along the shelf. Draw one ball under the first hat, then the next, until every hat has one ball. There are 6 hats, so there are 6 balls.

3. Are there enough cups for the children? Circle yes or no.

yes no

ANSWER

No. 1 child has no cup.

SOLUTION

Draw a line from each cup to one child. All 4 cups get a child, but 1 child is left with no cup. So there are not enough cups.

4. Ben counted the balls and said 5. Circle the ball he counted twice.

1 2, 3 4 5

ANSWER

The second ball. It got two words, "two" and "three". There are 4 balls.

SOLUTION

Each ball gets just one word. The second ball got two words, "two" and "three", so Ben counted it twice.

Count again, one word for each ball: one, two, three, four. There are 4 balls, not 5.
