Kindergarten Unit 1 worksheet: Subitizing and ten frames (answer key)

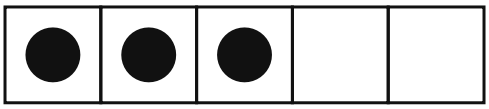

ANSWERS AT A GLANCE

1. 3
2. Die B.
3. Cards A and C.
4. No. The card has 5 dots.

WORKED SOLUTIONS

1. How many dots? Circle the number.

2 3 4 5

ANSWER

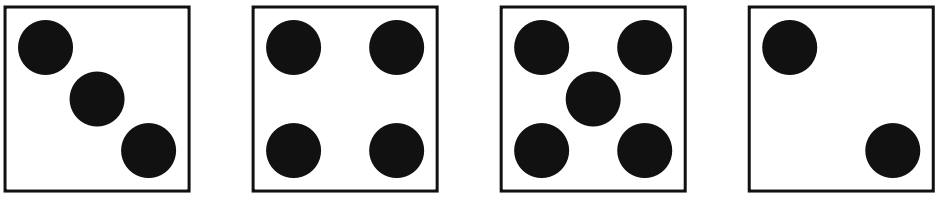

3

SOLUTION

The dots fill the first 3 boxes. Two boxes are empty.

A child can see 3 at a glance, without touching each dot.

2. Circle the die that shows 4.

ANSWER

Die B.

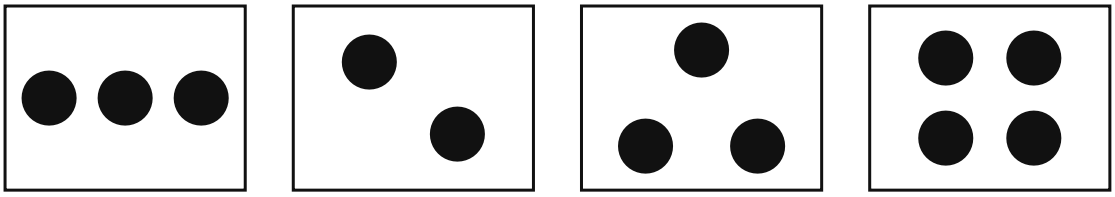

SOLUTION

Four on a die is a square: one dot in each corner.

Die A shows 3, die C shows 5 (the square with a dot in the middle), and die D shows 2.

3. Circle every card with 3 dots.

A B C D

ANSWER

Cards A and C.

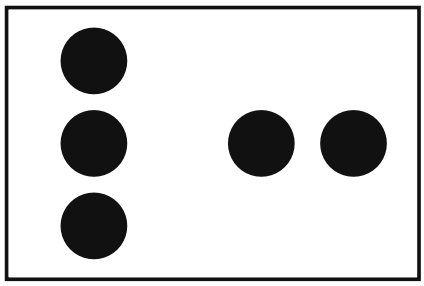

SOLUTION

A has 3 in a row and C has 3 in a triangle.

The dots sit in different places, but both cards show 3. Card B shows 2 and card D shows 4.

4. Mia says 4 dots. Is she right?

yes no

ANSWER

No. The card has 5 dots.

SOLUTION

See the two small groups: 3 dots on the left and 2 dots on the right.

3 and 2 make 5, so the card has 5 dots, not 4.
