Kindergarten Unit 7 worksheet: Counting to 100 and beyond (answer key)

ANSWERS AT A GLANCE

1. Write 73, 76 and 80.
2. Write 90 and 91.
3. Circle 20. That box should say 30.
4. Circle 80.

WORKED SOLUTIONS

1. Write the missing numbers.

ANSWER

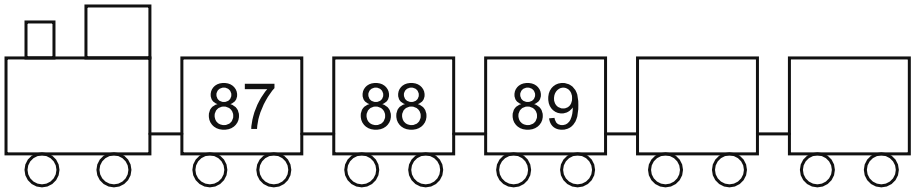

Write 73, 76 and 80.

SOLUTION

Read the row left to right: seventy-one, seventy-two, seventy-three. The first blank is 73.

Seventy-four, seventy-five, seventy-six: the next blank is 76. After seventy-nine the ones are used up, so the last box brings the new tens word, eighty: 80.

2. Write the numbers on the last two cars.

ANSWER

Write 90 and 91.

SOLUTION

Say the cars: eighty-seven, eighty-eight, eighty-nine. After nine the tens word changes, so the next word is ninety: 90.

Then the ones start again: ninety-one, 91.

3. Mateo made one mistake. Circle it.

26	27	28	29	20	31	32

ANSWER

Circle 20. That box should say 30.

SOLUTION

Say the words: twenty-six, twenty-seven, twenty-eight, twenty-nine.

After twenty-nine comes a new tens word, thirty, not twenty again. So the box with 20 is wrong; it should be 30. Then thirty-one, thirty-two follow.

4. What comes after 79? Circle it.

710	80	70

ANSWER

Circle 80.

SOLUTION

Seventy-nine ends the seventies. The next word is the new tens word, eighty, so circle 80.

There is no "seventy-ten" (710), and 70 is going back to the start of the seventies.
